Installation Terms & Conditions

I/we: _____

Agree to meet the terms and conditions listed below if the relevant application is successful. I understand that should any of the following terms be breached, the Corporation may withdraw its consent.

- Agree to be liable for any relevant costs associated with this application including meeting and administrative costs.
- The system must be installed by a licensed technician in accordance with relevant safety and electrical standards.
- The panels and inverter must be installed as per the submitted plans and must not interfere with the structural integrity of the building.
- The installation must not cause water ingress or roof leaks, and if it does, I agree that I will be responsible for all repairs associated including resultant water damage.
- Any damage to common property resulting from the installation must be repaired at the applicant's expense.
- The Corporation reserves the right to request adjustments if the system causes any issues for other residents or breaches any By Laws (if applicable).
- Consent applies only to the system detailed in this application. Any future changes require a new application.
- Consent is not valid until signed by the Corporation and received by the applicant.
